

As Head of Supply Chain and Logistics Solutions at JLL APAC Michael delivers to clients the value of Supply Chain Strategy and Design integrated with Logistics & Industrial Real Estate transactional advisory. Michael has led large Supply Chain transformation projects across APAC to drive business benefits through process re-engineering and optimization of the end-to-end value chain.

He has also optimized regional networks of companies across multiple sectors with a focus on consumer goods and life science. Prior to JLL Michael worked for Accenture and EY where he led the South East Asian Supply Chain Planning and Supply Chain Sustainability practices.
